

BUSINESS RETENTION & EXPANSION

One East Kentucky is a privately funded, non-profit economic development organization serving nine counties throughout the coal fields of Kentucky. OEK was established in partnership with local governments, chambers of commerce, industrial authorities, area development districts and private industry with a specific goal: to rebuild this region's economic base through the recruitment and retention of primary and secondary employers offering high-paying employment opportunities. OEK is governed and funded by the private sector, allowing us to work at the speed of business. Our corporate partners want to see companies like yours grow and expand across our region and continuing to employ the hard-working people of East Kentucky.

BR&E PROGRAM GOALS:

The main goal of the One East Kentucky BR&E program is to help ensure your success, future and prosperity in the region by:

- Providing assistance and helping you resolve issues that are detrimental to your bottom line
- Helping you grow your business and market reach
- Identify needs, concerns and opportunities through one-on-one meetings and surveys
- Build relationships and promote dialogue between government and business

HOW WE CAN HELP:

Incentive Negotiation and Application
Market Research
Supply Chain Identification/Assistance
Real Estate Identification
Business/Strategic Planning
Statistical Data Analysis
Commercial/Retail Lead Matching
